**ADAMS MORGAN PARTNERSHIP BUSINESS
IMPROVEMENT DISTRICT (AMPBID) REQUEST TO DDOT
REGARDING THE USE OF THE STRIPED MEDIANS FOR
COMMERCIAL LOADING/UNLOADING**

WHEREAS, throughout the planning of the 18th Street Streetscape, which was completed in July 2012, it was understood that the District of Columbia DOT (DDOT) would allow for limited commercial use in the medians in exchange for the redesigned curb side configuration which dramatically decreased private vehicle and commercial parking;

THEREFORE BE IT RESOLVED, the AMPBID requests that DDOT perform a pilot project for 120 days to test the viability of permanently allowing for limited commercial loading and unloading in the striped medians along the 2300 and 2400 blocks of 18th Street, NW and also in the 1700 and 1800 blocks of Columbia Road, NW. If no serious problems arise during the pilot project, then this will be made permanent with annual review.

BE IT FURTHER RESOLVED, that the AMPBID will work closely with DDOT to find locations in the above mentioned blocks where commercial loading and unloading can be performed in a safe manner where pedestrian and vehicular sight lines are not obstructed.

Passed at AMPBID Board meeting on July 9, 2013.

Vote was 11 in favor 0 against.
