RESOLUTION RECOMMENDING CIRCULATOR BUS ROUTE CONNECTING THE GEORGIA AVENUE-PETWORTH AND DUPONT CIRCLE METRO AREAS

WHEREAS; Crosstown bus service is severely lacking in many parts of the District;

WHEREAS; There is significant community support from the residents around the Georgia Ave.-Petworth Metro Station and the Georgia Ave. corridor for better crosstown bus service, including a Circulator bus route that connects the Georgia Ave.-Petworth and Dupont Circle Metro Station areas;

WHEREAS; There currently is no way to get from the Georgia Avenue Metro area to the Dupont Circle Metro area that does not include at least one transfer and backtracking, routes that are somewhat manageable during rush hour but nearly double commuting times during off-peak hours;

WHEREAS; ANC 2B voted unanimously on February 17, 2014, to support exploring the idea of creating an Circulator route from the Vietnam Memorial and the Lincoln Memorial to connect to all four Metro lines, connecting with Foggy Bottom, Dupont Circle, U Street, and ending at the Afro-American Civil War Memorial;

WHEREAS; An extension of the Circulator route advocated by ANC 2B north to Georgia Ave.-Petworth and/or Upshur Street, NW, would create the crosstown route desired by the community.

THEREFORE, BE IT RESOLVED THAT: ANC 1A supports working with DDOT, neighboring Advisory Neighborhood Commissions, and community groups to identify viable routes to enhance DDOT's Circulator service and connect the Park View and Petworth neighborhoods to heavily traveled crosstown destinations.

THEREFORE, BE IT FURTHER RESOLVED THAT: This line extend the route advocated by ANC 2B by beginning at the African-American Civil War Memorial and going east on U Street and Florida Avenue to connect with Georgia Avenue. It would then proceed north on Georgia Avenue to connect with Upshur Street. It would then continue east on Upshur Street to New Hampshire Avenue, where it would continue southwest to Quincy Street. It would proceed west on Quincy Street to Georgia Avenue, where it would reconnect with the original route in its southward route.
